## Our philosophy...

As a family owned and operated business for over three decades, Schneider Packaging has provided superior end-of-line solutions to a broad range of customers. Our equipment is durable, efficient, flexible and designed to application. Our dedication to exceeding expectation sets us apart from other packaging equipment manufacturers.

Our facility in Brewerton, New York has expanded several times over the years. Our trained and knowledgeable workforce represents hundreds of years of packaging system expertise. Our service technicians install, train and maintain each Schneider system as if the production line were our own. We know your plant's success is relying on the efficiency of our machines.

## We are committed to our customer's total satisfaction
